Chairman Statement

Our Vision is

"To be the most trusted international builder contributing to a better tomorrow"

Year 1975 marked PETROJET's inception in Egypt as a local construction company, with primary focus on oil, gas and petrochemical industries.

After more than four decades, we are an organization that points to a long list of outstanding achievements, a contractor that brings together an unbeatable combination of integrated services in one single destination.

we are still full of ambitions and enthusiasm to create more value to our people, shareholders, clients and country.

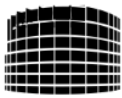

We have constantly proven our resilience, our dynamism and our ability for smooth adaptation to change. A good example is expanding our business to the field of infrastructure projects and heavy civil works. Today we pride ourselves as a high end full service EPC group capable of handling the toughest project challenges.

Our Vision is "To be the most trusted international builder contributing to a better tomorrow"; we are determined to realize this vision, by continuing to serve our clients in every possible way and providing them with best service under our Integrated Compliance Program; "".

All the acknowledgement & gratitude is to the joint efforts of the Board of directors, the management and the immense effort of our people "that considered our most important asset", coupled with the support of our shareholders where they have constantly helped PETROJET live up to the expectations of industry demand, growing stronger and bigger and delivering greater value to its clients.

We look forward Petrojet is taking extra miles consistently to serve and support all of its clients and partners to exceed expectations.

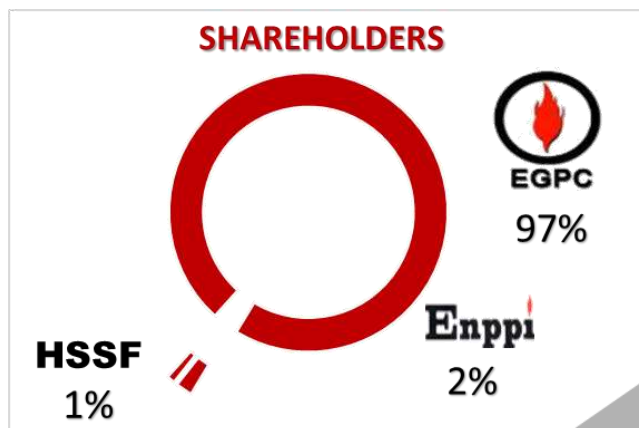

ENG. WALEED LOTFY
CHAIRMAN & MANAGING DIRECTOR

About PETROJET

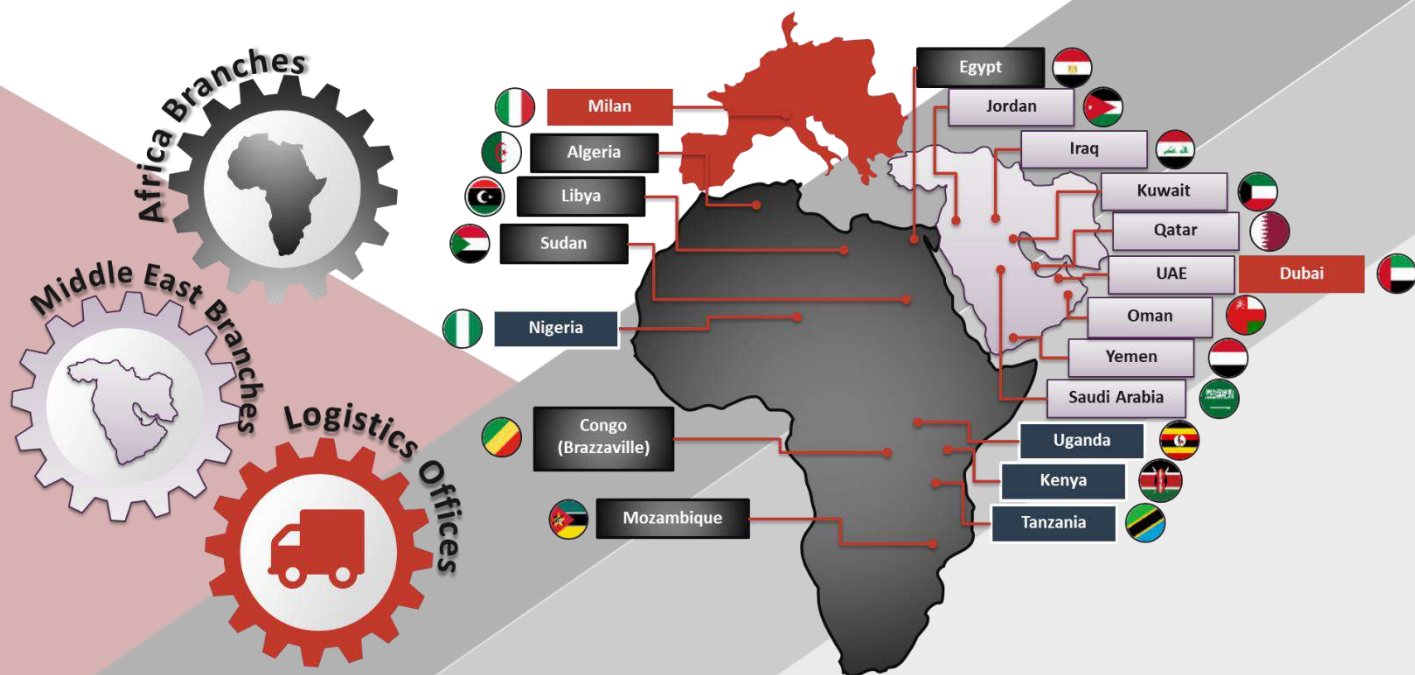

Headquartered in Cairo, Egypt, PETROJET is ranked today amongst the leading regional EPC Contractors.

Since its inception in Egypt in 1975, the company has maintained a steady pace building a world class experience base across various strategic focus areas like Oil, Gas, Chemical, Petrochemical, Power, Industrial and Infrastructure projects.

Regional Presence and Focus Area

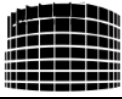

PETROJET is active in the Middle East and North Africa, and currently renders its services in over 14 countries besides Egypt operations.

Global Ranking

PETROJET is Ranked **148** of Top 250 Global Contractors and **161** of Top 250 International Contractors according to Engineering News Records for Year 2020.

Scope of Services & Records

PETROJET's substantial portfolio includes integrated end-to-end solutions covering:

HYDROCARBON / INDUSTRIAL

INFRASTRUCTURE

Plant Construction

Trunk Pipelines

Tunnels

Roads /Bridges

Storage Tanks

Process Equipment

Grain Silos

Power /

Offshore Structures

Pipe Coating

Precast Concrete

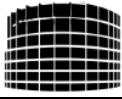

Buildings

PETROJET reference list is full of outstanding achievements executing over 1,500 Projects.

- Construction of over **150** Process plants.
- Fabrication and Erection of **300,000 tons** of Steel Storage Tanks (Cylindrical, Spherical and Cryogenic).
- Laying of over **30,000 kilometers** of trunk Onshore Pipelines.
- **10'000'000 m3** of poured concrete, for Civil & Building Works.
- Fabrication and supply of **1,600 units** of Process Equipment.
- Fabrication of **260,000 tons** of Various Offshore & Deep Water Structures.
- **22,000,000 m2** of pipe coating (concrete, polyethylene, polypropylene and polyurethane).

PETROJET is always in the hunt for the right opportunities to be pursued for addressing new markets and position itself for further expansions, while maintaining at the same time a strict commitment to create added value for our clients and building long-term Win-Win based relationships with them.

Strategic Framework

Our Vision

"To be the most trusted international Builder contributing to a better tomorrow"

Our Mission

We utilize our total commitment program "  "™" to provide first class integrated services, developments & investments to the energy, industrial & infrastructure sectors across the Middle East & Africa, while relying on Quality, HSE, Security, efficiency and ethical practices through qualified manpower, advanced technology and flexible management systems to sustain company's growth.

Core Values

- Quality, HSE, Security
- Ethics & Integrity
- Fair return for all
- Innovation & Excellence
- Continuous Improvement
- Sustainability

PETROJET We Care Program

At PETROJET, our vision is to be the major construction groups in the world in the next 10 years. Fulfilling such an ambitious vision is not an easy task. It requires a long term plan that reflects all aspects of business. We are here to grow and develop which means being sustainable is inevitable. As top management, we have decided to sum up our strategy in two words; We Care....

At PETROJET, We Care about major projects in the same manner we care about the smallest details; We care about efficiency whether it is delivering a project on time or simply ensuring that the mail reaches the addresser's workstation on time.

THE GOAL IS TO CREATE VALUE ON FOUR LEVELS:

Your Experience Helps Grow our Future.

COLLEAGUES

SHAREHOLDERS

"Keep the Ball Rolling" & Maintain Revenue Maximization.

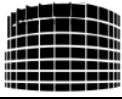

HOW WE CARE

Client Satisfaction is Our Most Important Core Value.

CLIENTS

SOCIETY

The Society Provides the Main Framework to our Business.

PETROJET Code of Business Ethics

At PETROJET, we conduct our business with a set of principles that reflect our values and established standards governing ethical individual and shared behavior.

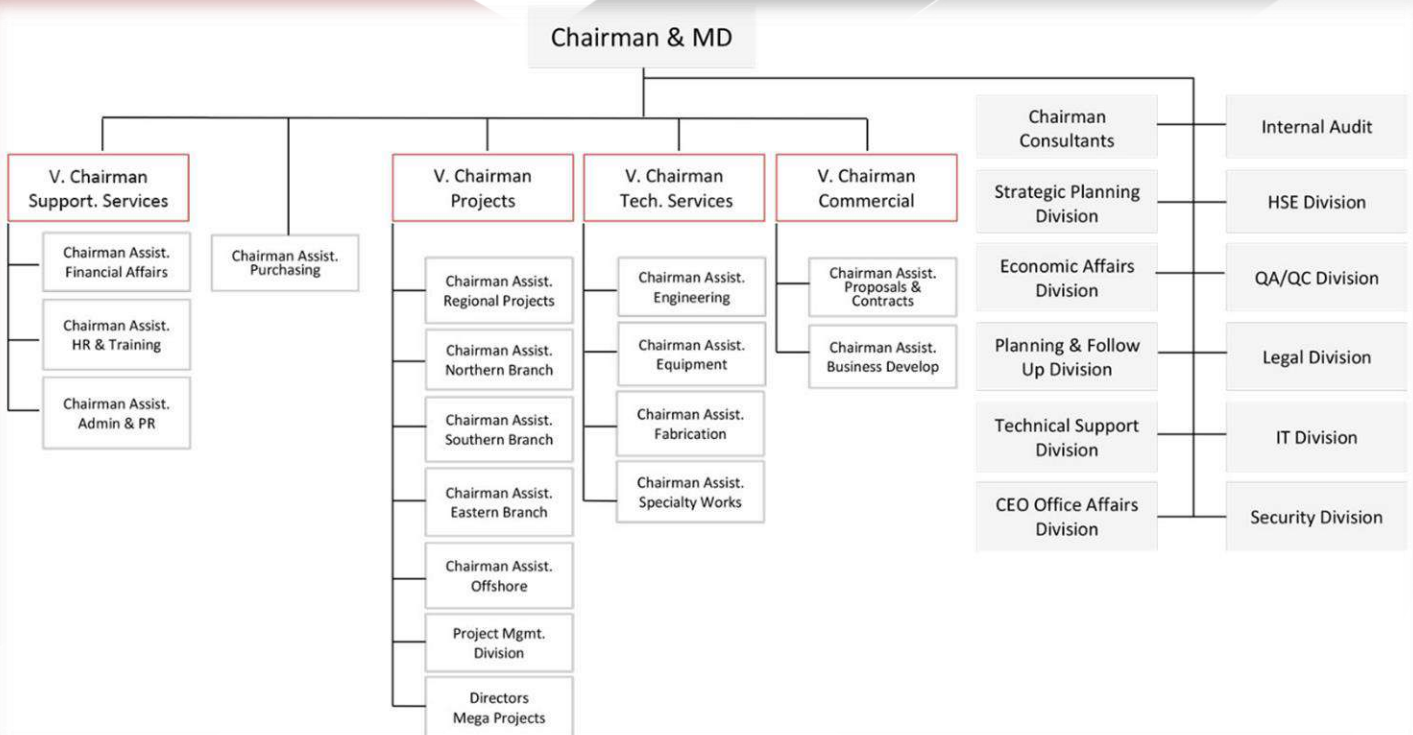

We strictly and consistently apply these standards in all our activities, and in full accordance with both the Egyptian Penal Law and PETROJET’s governance procedures.

That is how we have always gained the trust of our shareholders in addition to governments and communities in locations we work in, suppliers and subcontractors, and finally our colleagues.

PETROJET Code of Business Conduct & Ethics (COBC) is simply a tool that helps us make the right decisions; it sets out standards for each individual in the company in a clear and detailed manner; it states what we truly stand for as a company.

Organization Structure

Financial Over View

PETROJET enjoys a strong brand and a solid financial position.

Company has consistently delivered outstanding operating performance over the previous years despite the challenging conditions and economic slowdown in the region.

The Company has successfully expanded its portfolio by growing more on the regional level, and supporting continuous improvement in operating performance.

Health, Safety & Environmental Protection (HSE)

We take the safety of our employees seriously, and we definitely believe that all accidents are preventable.

It is a proven fact that Frequency and severity of loss can be influenced favorably if safety precautions are a high priority.

That is why, over the years, we have created a safety-first attitude among our people as part of the company's culture, putting safety above profit.

We pride that we never miss an HSE appreciation certificate in any of our projects which proves our commitment to Safety and Environment.

ETROJET
شركة المشروعات الفنية والاستشارات الهندسية والبيئية
THE PETROLEUM PROJECTS AND TECHNICAL CONSULTATIONS COMPANY - PETROJET

Implementing Life Saving Rules
Dear Colleagues:

Implementation of "Life Saving rules" is directed by his excellency the minister of Petroleum and Mining Engineers (Task 6-Ministry), and according to the instructions of EGPC, for dissemination to all Egyptian Petroleum sector companies. Complying with the IOGP organization standards, (which are followed by most countries worldwide).

Through the past years we have proactively built the safety culture of our company to save employees' lives, and as we believe in our company's wealth represented in company workforce and top management role to provide safe working environment, we would like to emphasize on the following:

- Safety is our most important core value.
- Unsafe behaviors can lead to loss of limbs or life itself.
- There is risk in every task we do, but no activity is worth risking your life over.
- We would like to send you back to your family in the same safe condition you came to us with.

Following the Life Saving rules is the way we keep our workforce safe during performance of tasks:

"Life Saving Rules" should be always considered and respected while performing all tasks. Following and sustaining these rules, will help us solve most of our current problems.

These simple rules provide basic guidelines. I ask everyone to understand and set upon them. The safety of everyone depends on our commitment to the highest standard of care at all times and in all circumstances.

By your commitment and support, we can enhance and improve our Safety Performance. I'm expecting that each leader will convey this message with the relevant departments and the contractors they routinely deal with.

Thanks, and work safely

Eng. Walied Lotfy
Chairman & Managing Director

PETROJET Workshops Are Technically certified ASME U, PP, U2, S, R stamps in addition to R Stamp & API Monogram. Also, PETROJET has managed to acquire the Nuclear Component Certification ASME N-Stamp (N – NPT – NS) and accreditation including Material Organization (MO).

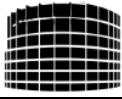

Certified to manufacture Sucker rod Pumps

Codes & Standards

PETROJET Human Resources

OUR PEOPLE >>> OUR SUCCESS

PETROJET seeks out the most talented individuals in their respective fields and employs thousands of them in over 10 countries.

Managing human capital is essential to achieving sustainable growth; that is why we believe that retaining key employees is as critical as attracting new ones.

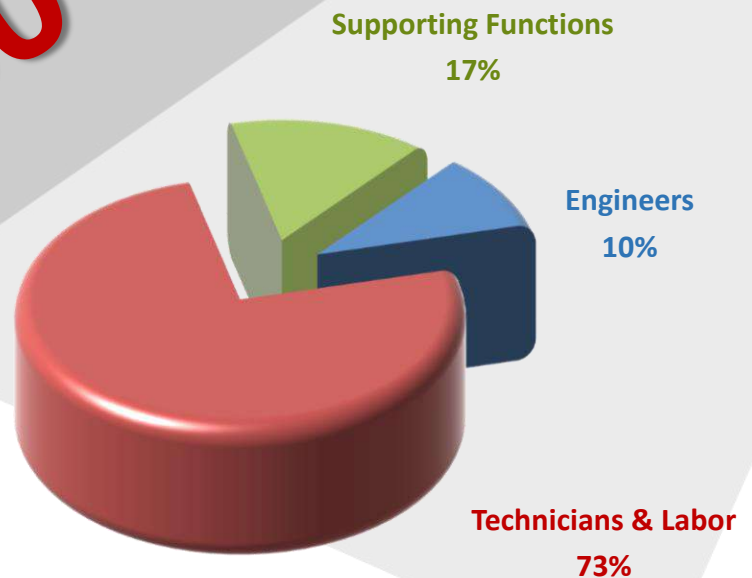

The company currently employs more than 30,000 people (2017 av.) with Engineers comprising 10% of this figure, while Technicians and Labors represent around 75%.

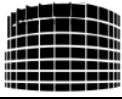

"OUR PEOPLE – Our Most Valuable Investment"

All of our people bring together a rich variety of skills, and the company relies on them to maintain and build on the success of its business.

**WORKFORCE
40,000**

Owned Construction Equipments

Flexing "MUSCLES" ...!!

As one of the regional lead EPC Contactors, PETROJET owns a large fleet of modern construction plant and equipment to cover the wide range of diversified activities provided. This fleet that is easily maneuvered and mobilized to PETROJET's work sites across the Middle East and North Africa.

This fleet has always served as key element for strengthening PETROJET's leadership achieved over a period of 35 years in the oil & gas industry. That is why PETROJET is always in the strive for bringing in latest equipment with highest capacities and latest technologies in addition to providing State of Art maintenance programs to keep pace with the rapid growth and company's operations across the Middle East & North Africa.

It has always been PETROJET's strategy to retain its own fleet of main construction equipment, rather than depending on hiring from others, and this strategy has helped the company during the un-preceded project boom in the MENA region which was, naturally, associated with inadequate supply of various construction equipment.

Lifting Equipment (Hoists & Cranes)

(554 UNITS)

PETROJET owns a fleet of lifting equipment considered one of the largest owned by and EPC Contractor in the Middle East and North Africa in terms of numbers and capacities.

Among hundreds of various types and models of cranes, PETROJET owns two giant cranes, first one is a wheel crane with capacity of 500 tons, whereas the second one is a crawler crane which spearheads the lifting equipment fleet of PETROJET with outstanding lifting capacity of 1,250 Tons at 14m radius and main boom up to 144m.

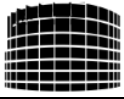

Earth/ Road Equipment

(450 UNITS)

PETROJET owns a fleet of Earth Moving equipment comprising of Dozers, Loaders, Excavators, Rock Breakers, Graders, ...etc.

Welding Equipment

(2762 UNITS)

PETROJET owns a variety of Welding Machines & Equipment for various disciplines.

Concrete Equipment

(160 UNITS)

PETROJET owns a fleet of Concrete equipment comprising of Concrete Batch Plants, Concrete Trans mixers, Concrete Pumps, etc.

Miscellaneous Equipment

(1700 UNITS)

Dredgers

Air Equipment

Side Booms

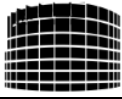

(192 UNITS)

Horizontal Directional Drilling

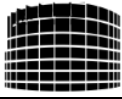

Transportation Equipment
